

AdVantEdge DWS-4510-01

The DWS-4510-01 is a single stage water treatment approach with an integrated system design, ideal for under-counter household use. The system includes a selected 4.5 inch x 10 inch arsenic removal cartridge, housing components, i.e., sumps, caps, mounting bracket, faucet (lead-free), shut-off device, and tubing for a complete unit. AdEdge Water Technologies supplies both the system components and replacement cartridges. The system is available to qualified water treatment distributors and dealers for subsequent re-sale to end users. Replacement cartridges are available through AdVantEdge authorized distributors.

Specifications: Model: DWS-4510-01

Arsenic Cartridge	4.5-inch x 10-inch; AdVantEdge Model AD4510S
Materials Housing	Injection molded plastic
Mounting	Painted metal mounting bracket
Faucet	Lead-free faucet with ¼ inch tubing
Shut Off Device	Mechanical countdown shut-off device mounted on bracket
Arsenic media	AdEdge custom AD33 product
Water source	Potable water of known microbiological quality (microbiologically safe)
NSF testing	Components tested in accordance with NSF protocols, no specific listings
Box/Packaging	Plain white box, with or without label
Dimensions	7.5” width / 21” height

Performance

Rated Cartridge Life	1000 gallons 3000 gallons
Arsenic Concentration	Up to 100 ppb influent arsenic; if higher than 100 ppb please consult AdVantEdge Up to 50 ppb influent arsenic
Replacement	Every 12 months or 1000 gallons, whichever comes first (for 100 ppb arsenic) Every 12 months or 3000 gallons, whichever comes first (for 50 ppb arsenic)
Rated Flow Rate	0.5 gpm
Parameters	Claims made are for pH values at 8.5. Performance can be almost doubled at lower pH values (i.e. 6.5)
